

Hyder Construction Building New Project for Arapahoe County

September 13, 2007

Hyder Construction has been selected as the CM/GC for Arapahoe County Facilities and Fleet Management Department's new Eastern Service Center. The facility will consist of three buildings totaling 22,000 square feet.

Amenities located on-site will include a fuel island, salt storage, vehicular wash facility, water storage facility, leach field, and exterior storage for vehicles and materials. The new Service Center will be located at Quincy Road and Brick Center Road south of Bennett, Colorado. The project, designed by Oz Architecture of Denver, is slated for completion in the summer of 2008.

Hyder Construction is a Denver-based general contractor specializing in commercial construction. Hyder has served Denver, the Front Range, and mountain communities for over 60 years.
