

Hyder Construction Inc. Begins Construction on New Denver Projects

Hyder Construction recently began construction on two new projects in Denver, the University of Denver Sie Cheo Kang Pavilion and Tony's Market.

Hyder was selected by the University of Denver for the new addition to the existing Ben Cherrington Hall. The addition, which will house a new lecture hall, faculty and dean's offices and the Graduate Studies of International Affairs Program, is scheduled for completion in July of 2009. Tony's Market, a locally owned specialty food market and restaurant, will open their first Denver store at 950 Broadway. The newly constructed space will include a market area specializing in high quality meats and seafood, a bistro with seating for 80 and a dining patio with outdoor seating. The project is scheduled for completion in June of 2009.

Hyder Construction is a Denver-based general contractor specializing in commercial construction. Hyder has served Denver, the Front Range, and mountain communities for over 60 years.
